MARCH 2016

MARCH 2016

WELCOME TO OUR BOOK OF ACCESSORIES.

No project is complete without the attention to detail and bespoke refinement made possible by carefully selected accessories.

Refinements are tailored to the individual needs of each discerning user. From enhancing furniture with handles & work surfaces, to including lighting for mood or function.

Accessories are a vital part of any project, the majority of which need to be incorporated at the planning stage, to avoid unsightly retro fit or costly post installation adjustments.

Take time & consideration to selecting your refinements from our specially selected & functional accessories.

Premier Lux are the very latest in Laminate & Decor technology.

The laminate uses high definition to create stunning effects.
The resin treated papers used within the laminate are processed under high heat & pressure to create a finish that is 5X more scuff & solution resistant, when compared to standard laminate.

To help you choose a finish of worktop we have selected the fascia colour which our design team recommends could be used to compliment each individual style. Shown below each colour swatch are the recommendations.
